The Chicago Sessions

Especially for couples, The Chicago Sessions are great as engagement shots or anniversary / birthday gifts to your loved one. Let photographer Steve Vansak join you for a day in the big city, visiting various landmarks, shopping Michigan Avenue, lunch in the Loop and strolling through Millennium Park. We will board the South Shore train and photography will begin on the platform as the train arrives. We will photograph on the train and continue upon arrival.

Transportation is included in the package as is a Deluxe Hardbound Book containing all of your shots and a luxurious Leather Wrap print. Shot in classic black and white with color versions available.

Basic Package at \$399.99

THREE HOURS OF PHOTOGRAPHY - 5 HOUR TOTAL TRIP

- Additional Deluxe Custom Designed Hardcover Book (7x7, up to 40 pages) - \$149.99
- Jumbo Hardcover Book (12x12) \$249.99
- DVD Slideshow (chapters, music, full menu, special features, cover art, video embedding for My Space, Face Book) - \$99.99

You will be captured strolling along with the city as your backdrop. At times you will forget that your photographer is even there. I will encourage you to take a break, get some coffee and sit down by the Chicago River for awhile. Be yourselves and let me capture you from a distance.

Classic, timeless clothing is recommended. Showcase your own styles, but solid colors will work best. Some of your black and white images will have the look of old film. Viewers of The Chicago Sessions often comment that the images have a cinematic, movie like quality to them.

Choose one of your cinematic images for your Leather Wrap Print. The black and white image will look great anywhere in your home and the unique texture will have guests envious.

As a former and current student of photography and digital design, Steve Vansak can offer many types of collages and special effects.

Your Deluxe Engagement Album will include many design touches to suit the mood of the occasion. No two books are alike and are printed on premium coated paper. The cover images are printed directly on the hardbound covers. Ask to see samples.

Keep in mind that retouching will occur as part of the digital darkroom processing and does not cost extra.

Color versions of all the shots will be made available for those images in which only color will do.

The Chicago Sessions don't just mean standing next to 'The Bean' in Millennium Park or a 'Welcome to Chicago' sign.

Consider some of these ideas:

- Stop by some of the unique, funky shops the city has to offer for various candids.
- Take a break for snuggling down by the Chicago River.
- Take a stroll through Millennium Park for Spring flowers or put on some skates for Winter Ice Skating.
- Visit The Loop area and capture some unique poses with the skyscrapers as background.
- Take a horse driven carriage around downtown for some romantic shots.
- Duck into the downtown alley ways for some cool Urban type shots.
- Hop on the L Train for a quick visit up North.

Getting to know and trust your photographer is critical. Once you are comfortable with the person behind the lens and are confident in their abilities to capture your special day, amazing images will come forth. Please call or visit online to learn about Steve Vansak of SBV Photography, the exclusive photographer for Region Weddings.

"I shoot exclusively in a Digital Negative format so I can bring optimum image quality to each photograph. After every session, each digital negative is taken into the digital darkroom for processing. Your shots will receive color corrections, retouching, general clean up, and in some cases design work." Add to this technical knowledge a great sense of fun and
